
In 1950, during the height of the search for uranium, Kenneth G. White built his first geiger counter in the basement of his furniture store in Sweet Home, Oregon. Soon, word spread about Ken’s new invention and he was building them for customers far and wide. As the demand for uranium quieted, Ken turned his focus to metal detectors for finding gold and treasure. His first detector was a great success and marked the beginning of the metal detector industry.

Today, the tradition of quality, hand-built metal detectors is still going strong under the leadership of President Kenneth R. White. Still hand built on the banks of the Santiam River in Sweet Home, Oregon, White’s continues to provide easy-to-use, deep-detecting metal detectors - for the hobbyist and the professional alike. The philosophy that guided Ken White’s vision over sixty years ago remains the hallmark of the White’s success story, “Give the customer quality and value and treat your employees like family.”

UNDERSTANDING THE ICONS IN THIS CATALOG

COINS
Finds coins of all sizes, denominations and metal contents including old silver coins, modern silver clad, copper and zinc pennies and gold coins.

JEWELRY
Dets gold and silver rings, costume jewelry, pendants and medium to large chains and bracelets.

GOLD PROSPECTING
Special programs, features and/or operating frequencies for the challenge of finding gold nuggets, small to large.

RELICS
Finds relics of the past: Civil War collectibles, Revolutionary and other war artifacts, plus farm items.

BEACH MODE
Features and circuitry for hunting saltwater beaches; tunes out highly mineralized black sand to detect coins and jewelry.

CACHE
Detects large, deeply buried items, caches of coins and treasure chests.
**METAL DETECTING** is a fun activity to enjoy as an adventure, hobby, or way to relax. Once armed with your detector of choice, just step outside!

### There's Treasure Everywhere...

The biggest misconception among new detectorists is thinking they have to go somewhere exotic to start hunting for treasures. You’ll be amazed at what you might find right outside your front door. Wherever people have been, items have been lost and now are just waiting to be discovered. Your own turf will let you get to know your detector and its settings, maybe even finding something along the way. When you’re comfortable, it’s time to step out into the neighborhood. You might be surprised what you discover, even in urban and residential areas.

### Find Friendly Experts...

You can benefit from others’ wisdom in any area of life and metal detecting is no different. Finding a local treasure hunting club is a great way to learn from seasoned local pros. Even better than advice is the company of those who also enjoy the hunt and thrill of discovery. Just like with fishing, these folks will know some good spots, tell a few tall tales and make the journey more fun.

### A Hobby That Fits Your Lifestyle...

You might find yourself seeking farther places to hunt, or packing your detector for vacations, but this hobby also fits into your regular life. Nearby beaches are given a new bounty by each passing storm and grassy strips next to sidewalks prove surprisingly rich in lost artifacts. You’ll find excitement while metal detecting and the adventures fit easily around your life and location.

and start finding treasure! V3i is unequaled at finding those older, deeper, more valuable items, especially in areas hunted time after time with other metal detectors.

SIMPLY TURN ON THE V3i...
Spectra® V3i

THE SPECTRA® V3I IS WHITE’S FLAGSHIP METAL DETECTOR. The beautiful, full-color HD display clearly explains the depth and metal type of detected objects. If you’re just starting out, the V3i has 10 presets, giving you turn-on-and-go versatility that fits your terrain and target... whether it’s coins, jewelry, relics of the past, or gold nuggets. Expert users will appreciate the V3i’s dozens of optional settings. You’ll experience unparalleled depth and sensitivity, even in previously-hunted areas!

The V3i works best with the optional wireless SpectraSound headphones. White’s premier headset lets you hear every signal with astonishing clarity and without worrying about outside noise or tangled cords.

high performance metal detection. Rely on settings from the experts at White's for all the essential adjustments. Perfect for the detectorist who just wants to get out using the detector! And versatile enough to hunt for coins, relics, rings and jewelry… even gold.
THE VX3 COMBINES THE PREMIER PERFORMANCE of the Spectra® V3i with the turn-on-and-go simplicity of the Coinmaster detector. This top-of-the-line metal detector is easy to use with 8 preset hunting programs. You’ll be ready to discover coins, jewelry, gold, silver and relics. You can even take it to the shore with a specialized beach mode.

3 detecting frequencies are optimized for different targets: 2.5 kHz, 7.5 kHz and 22.5 kHz. When you come across a target, the SpectraGraph® Target Signature shows on the VX3’s high-resolution display, helping you decide whether to dig. There are essential settings for you to optionally adjust, but the Spectra® VX3 is all about making treasure finding easy and detecting targets with performance worthy of the Spectra® name.

800-0331
MX Sport does it all, finds it all. This is “no limits” detecting! Ready for coinshooting, relic hunting and prospecting for gold, the MX Sport is your all-terrain metal detector.

IN AND OUT OF THE WATER
UPDATE THIS WATERPROOF METAL DETECTOR can do it all! Beach hunting, relics, coins and jewelry, even prospecting. With its roots in the MX lineup, MX Sport builds on the legendary MXT, including the latest technology for improved performance, more options, and expanded features. Selectable Tone ID, Audio Modulation, and Rejection Volume help hardcore hunters determine the difference between good and bad targets faster. Choose between track, track-lock, or salt-tracking ground balance. Dial in your SAT to deal with harsh ground minerals. The best part - the MX Sport is IP68 Certified Waterproof (up to 10 feet).

“Awesome machine. MX Sport finds deep targets with ease. White’s, you hit it out of the park. Good job.”

– Jason W. | online review

FEATURES

Six Adjustable Hunt Programs. Coin and Jewelry, Beach, Relic, Prospecting, High Trash and All Metal. Plus, Pinpoint
Fast Recovery Speed. Pick out those good targets right alongside trash
Reject Volume™. Maximize depth and filter target responses by the intensity of the volume 8 settings
Salt Track. An option in all hunt programs. Salt Track enhances performance in wet sand, in some farm fields and in the alkali patches often found in prospecting areas
Tone ID. Hunt in 1, 2, 4, 8 or 20-tone I.D.
Auto Ground Balance with Tracking. Grab options. Complete versatility to go from the park to the beach to the desert
Frequency Offset for hunting alongside other detectors
Frequency 13.9 kHz
Headphones land headphone and adaptor included. Optional waterproof headphone
Rugged, Waterproof Housing impervious to dust, rain, and humidity. IP-68 certified waterproof to 10 feet
8 “AA” Batteries included
10” Double D Waterproof Coil (other Sport coils available, sold separately)
2-Year Parts & Labor Warranty
Adjustable Armrest with armstrap

is surpassed only by the sheer volume of treasure found by its users. The All-Pro has the versatility to hunt for all kinds of treasure, with the power to excel in prospecting and relic hunting's harsh grounds.
THE MXT ALL-PRO is like having three metal detectors in one! You’ll enjoy the keypad, high-efficiency backlight, Grab and lock settings. This favorite comes with a 10” DD search coil. Three separate programs give you versatility with different target responses, display info and audio frequencies for relics, prospecting and coins/jewelry.

**FEATURES**

- **Backlit Display** for hunting in low light conditions.
- **Tone ID** seven tones in the coin & jewelry program to identify different targets before you dig
- **Grab** update ground tracking from a locked or tracking setting
- **3 Separate Programs** unique target responses, display info and audio frequencies.
  - **Coin/Jewelry** display offers vdi -95 to +95, target blocks, coin/jewelry/trash-target labels, depth reading and tone id and more
  - **Relic** specifically id's buttons, buckles and bullets. Displays vdi range of -95 to +95, target blocks, relic target labels, depth reading and more. 3 Options for tone id.
  - **Prospecting** iron grunt for targets with high probability of being iron. Vdi range of -95 to +95, % probability of iron, ground phase and more
- **Automatic Ground Balance** simple, fast, accurate
- **3 Easy-Adjust Controls:**
  - **Gain** maximizes sensitivity and depth
  - **Threshold** allows you to hunt with a slight hum or hear only the sound of targets
  - **Dual** functions differently in each program
- **Operating Frequency** 14 kHz
- **10” DD** waterproof search coil
- **Drop-in Battery Pack** 40-hours from 8 “AA” batteries
- **Two Year** parts and labor warranty

MX5 has a beach mode for hunting in the surf and wet sand. It’s just as at home hunting around town, in farm fields, and in the mountains.

GO AHEAD, GO AFTER THE JEWELRY!

MX5 has a beach mode for hunting in the surf and wet sand. It’s just as at home hunting around town, in farm fields, and in the mountains.
OUR MOST AFFORDABLE M-SERIES DETECTOR, the MX5 shares electronics with the MX Sport and MXT All-Pro. Features a high-performance coin program for dependable all-around hunting. Plus, the Beach mode allows you to hunt from dry sand right into the surf, tracking out false signals.

Turn-on-and-go simple, plus lightweight and balanced, with impressive depth and reliable, dead-on Target ID. MX5 is rugged, weatherproof and ready to hunt the saltwater and freshwater beaches and all around town.

Simply turn it on and go! Whether you're searching for coins in the park or relics of days gone by, the TreasureMaster® is the perfect hunting partner.
TREASUREMASTER® BRINGS THE FUN TO METAL DETECTING,
Combining simplicity with high-end features in a detector that excels at finding coins and jewelry. Unlike most detectors at similar prices, TreasureMaster’s automatic ground balance adapts to ground conditions as you hunt. The result? Improved depth and sensitivity to targets big and small.

“Came back to White’s after using several different brands. I am impressed with my new TreasureMaster®. Hard to beat for the price and quality. If you want a great detector at a good price, this is the one.”

THE must-have accessory for your White’s metal detector!
Bullseye® TRX Pinpointer

WHY DO I NEED A PINPOINTER?

A PINPOINTER WORKS ALONGSIDE YOUR FULL-SIZED METAL DETECTOR to speed up target recovery and minimize the risk of damaging a valuable find. Once you’ve detected a good signal and dug a hole with your metal detector, use the Bullseye® TRX to scan the hole and the surrounding dirt and quickly isolate the target. In short, it’s a must-have tool for all treasure hunters. Pinpoints gold nuggets, too!

FEATURES

3 Audio Modes:
Beep And Vibrate | Beep Only | Vibrate Only

Adjustable Sensitivity 4 sensitivity settings
Waterproof to 10 feet, IP68 certified

LED Light a bright LED provides illumination while probing and acts as a power indicator

Ground Balance a quick press of the button “grabs” the ground for accurate ground balance

Target Ratcheting a quick press of the button ratchets in on strong target signals

Overload Indicator a large target will create a series of long audio/vibrate responses to signal overload

12 kHz operating frequency won’t interfere with the frequency of your metal detector

Lost Pinpointer Alarm after 5 minutes of inactivity it sounds a long beep every 15 seconds, helping to locate it

Automatic Power Down after 5 minutes of the lost pinpointer alarm, it will power down to save batteries

Holster handy belt holster with lanyard loop

Replacement Shell designed so if the shell becomes worn down, it can be easily replaced

Low Battery Alert 3 cycles of double tone indicates low battery, with continuous blinking led

Ruler a handy ruler is embossed on the case to help determine target depth

Dual Battery System runs on included 2-AA’s or a single 9-v. Adapter included

Battery Life: 20 hours

$159.95

800-0343
in its pursuit of gold. Used by weekend prospectors and professional miners, it’s rich with the features and performance needed in gold country. Sure it’s designed especially for gold, but finds coins and relics as well.
The GMT is White's Goldmaster® - used in goldfields around the world! This detector ignores the harsh ground found in gold-bearing areas to simplify prospecting and find nuggets large and small - plus coins & relics.

The GMT® is made for gold country, with 48 kHz operating frequency - the best for gold - and a waterproof search coil that's ready for streams and rivers. High-end features like the iron target analyzer make hunting easier. Manual controls are available for advanced users and each option includes a recommended initial setting.

Also onboard: variable self-adjusting threshold, Grab Pushpad for setting ground balance instantly, automatic ground balance and "Follow the Paystreak" feature, which displays the amount of magnetic minerals in the ground.

**FEATURES**

- **Auto Ground Balance** with fast Autotrac®
- **Tracks And Adjusts** while you hunt
- **Grab Pushpad**
- **Ground Balance** sets in an instant
- **Iron ID** bar graph
- **Probability Of Iron** displays in percentage
- **Iron Target Analyzer** determines the probability of iron as you sweep
- **“Follow-The-Paystreak”** displays the amount of magnetic minerals in the ground
- **Optional Audio** iron ID "grunt" comes at the end of the gmt's “zip-zip” sound
- **Variable Self-Adjusting Threshold (VSAT)**
- **Waterproof Elliptical “DD” search coil**
- **48 kHz** operating frequency - best for gold!
- **“AA” Drop-In Battery System**
- **40 Hrs. Of Hunting** (optional Nicad rechargeable system, sold separately)
- **Two-Year** parts and labor warranty

**$799.95**

The TDI PulseScan SL provides serious detectorists with affordable pulse power. Initially developed to meet the demands of gold prospectors searching for extremely small and deep nuggets, the TDI has evolved into a detector that has proven itself as an effective detector for relic hunting, beach hunting and, under the right conditions, even coin hunting.
THE TDI SL METAL DETECTOR has pulse induction power that provides unbeatable depth and sensitivity and is designed specifically for prospecting and identifying relics. Pulse detection is unequalled in handling iron-rich soil and hot rocks found in gold-bearing areas. Special prospecting features make life easier, such as full-control ground balance that filters out the iron mineralization of hot rocks, black sand and other tough grounds.

To hunt all day, you need a lightweight detector that still provides high performance. This compact detector weighs only 3.5 Pounds with its waterproof 12” spider search coil, which offers deep detection depth. Other accessory coils are also available.

The rechargeable NIMH battery lasts up to 6 hours and a backup AA battery back will power all-day exploration.

### FEATURES

- **Full-Control Ground Balance** quickly balance out the iron mineralization of hot rocks, black sand and other tough grounds
- **Adjustable Pulse Delay** settings from 10 microseconds (best for finding gold nuggets) to 25 microseconds (for relic, coin and beach hunting)
- **Variable Audio Select** with ground balance “on”
- **3-Way Target Conductivity** selector allows variable audio to hear either only low conductive targets like most gold nuggets, or high-conductive targets like silver coins and large relics, or both. Unique ability to aid in identifying trash
- **Threshold Control** accurately adjust the audio to hear the smaller, deeper signals
- **Frequency Control** adjustable for hunting near power lines, microwave or other interference
- **Gain Control** maximizes sensitivity and depth
- **Battery LED Light**
- **Nimh Rechargeable Battery Pack** with backup “AA” pack included
- **Waterproof, 12” spider search coil**
- **Two-Year Parts and Labor** warranty

**MSRP: $1299.95**

**Call: 800-0332-12**
SEE THROUGH THE WORST BEACH GROUNDS

The Surfmaster® Dual Field pulse induction detection penetrates black sand to find even tiny gold. The Surfmaster® is the go-to detector for some of the world's most successful water hunters.
Surfmaster®
Dual Field

COMBINES TURN-ON-AND-GO EASE with extreme depth and sensitivity. The pulse induction’s powerful circuit and dual field coil detect deep even in the worst beach grounds, like black sand.

Pulse Induction Detection for extreme depth on coins and jewelry, especially in saltwater and mineralized ground

Completely Waterproof to depth of 100 feet

Adjustable Pulse Delay reduces black sand noise. Quieter on the beach, more targets

12” Dual Field spider search coil. Near-neutral buoyancy

Sensitive To Gold even at maximum depths

Gain Control Adjusts for your particular beach conditions so you get every inch of pulse induction depth

Quick Target Recovery

Tuner Adjusts Threshold tone and checks battery

Variable Sweep Speed slow to fast with no loss of depth

Waterproof Piezo headphones

Automatic Ground Rejection

Power: 8 “AA” Batteries

Two-Year parts and labor warranty

“...The Surfmaster PI Dual Field detector has located targets at depths that I did not believe were possible. I located a target at just over 20 inches deep in the sand. It was a 1940 Mercury dime... Yes, a silver dime at over 20 inches deep, incredible!”

~Tom from Pennsylvania

FEATURES

$899.95

MSRP

800-0323
TM 808 is designed for locating coin caches, treasure chests and hordes of gold or silver - as well as septic tanks, tools, equipment, metal pipes and relics.

INDUSTRIAL AT ITS BEST
WHEN YOU’RE AFTER BIG, DEEP TARGETS, the TM808 is up to the challenge. With a detection depth of up to 20 feet, it’s the choice of professional treasure seekers and industry.

So whether you’re pursuing tales of lost Spanish gold or just looking for a buried pipe, the TM808 is ready to go.

FEATURES

Signal Balance Control adjusts the “receive” signal to allow use almost anywhere - regardless of mineralization or outside interference

Easy-To-Read meter shows signal strength

Race Track Antenna system and state-of-the-art professional circuitry

Adjustable Ground Balance

The Only Cache Detector with the ability to reject ground minerals for deeper detection

Push-Button Retuning

Drop-In C-Cell battery pack

Easy Tuning & setup preset settings on each control for hassle-free setup

Designed To Find septic tanks, tools and metal pipes as well as coin caches, treasure chests and hordes of gold or silver

Control Settings labeled in English and Spanish

Instruction Manual in English and Spanish

Two-Year parts and labor warranty

SpectraScan® Handheld

Designed to meet and exceed the needs and specifications in today’s security conscious world and complies with all National Institute of Justice standards for indoor/outdoor operations. 900-0001

$229.95 MSRP
ACCESSORIES

NIMH CHARGER STAND
NiMH Charger Stand required for use of 509-0042 or 509-0037 Charger and 802-5281 NiMH Rechargeable Battery. Holds Battery and completes/monitors charger electrical functions. 802-5285 $49.95

STANDARD NIMH RECHARGEABLE BATTERY
Standard Equipment with Spectra V3i, also works well as a premium rechargeable battery for MXT and M6. Must be charged with 509-0042 or 509-0037 NiMH Charger and 802-5285 NiMH Charging Stand (V3i Standard equipment charging system). Provides 2200 mAh capacity for a 20% increase in use time prior to recharge over standard 802-5281. Can be used with M6, MXT, XLT, VX3, V3i and Slim Line TDI (SL) models. 802-5321 $59.95

HEAVY DUTY NIMH RECHARGEABLE BATTERY
Heavy Duty Replacement/Substitution for standard 802-5281 NiMH (1800 mAh) Rechargeable Battery and 802-5211-1 NiCad Battery. Must be recharged only with 509-0042 or 509-0037 NiMH Charger and 802-5285 NiMH Charging Stand (V3i Standard equipment charging system). Provides 2200 mAh capacity for a 20% increase in use time prior to recharge over standard 802-5281. Can be used with M6, MXT, XLT, VX3, V3i and Slim Line TDI (SL) models. 802-5321 $79.95

NEW! DIGMASTER >>>
Ultimate trowel. Heat tempered, serrated edge. Sheath included. 601-0073 $39.95

NEW! TARGET DEMO KIT
You can HEAR what common targets sound like... and SEE how they display on the screen. Just throw the targets down and sweep over them to learn the sights and sounds of common targets. Included: Quarter, Dime, Nickel, Penny, Bottle Cap, Pull Tab, Nail. 802-8093 $6.95

INTERNATIONAL WALL CUBE CHARGER
Spectra V3 Charger. (Replaced 509-0037). Use inside the USA and also adapts (plugs change out) for world wide International use. Electronics automatically adapts to all voltage/current. 509-0042 $29.95

ACCESSORIES

SPECTRASOUND WIRELESS HEADPHONE
No-delay real-time audio that matches perfectly with your Spectra V3i sweep speed and speaker response. Multiple channels to choose from to avoid picking up signals from other Spectra V3i/VX’s in the area, or set two headphones up to hear targets from one detector. A terrific tool for teaching about target sounds! 802-5282 $299.95

PROSTAR HEADPHONE
A premium headphone “Made in the USA” by White’s specifically for our metal detectors. Rugged, oversized earcups. Water-resistant chassis. 50 OHM Mylar Speakers with Titanium Coating. 5k Audio Taper with R/L ratcheting volume controls. Soft, coiled cord stretches to over 6 feet. Works with mixed-mode audio. 802-5323 $119.95

ULTALITE HEADPHONE
UltraLite Headphones are packed with features to help you hear those smaller, deeper targets while being light, comfortable and collapsible. 1/4” headphone jack, coiled cord extender, foldable design for go-anywhere portability, comfortable over the ear pads, and inline volume control. This headset is best for large head sizes. Also perfect to wear over a stocking hat or baseball cap. 401-2024 $49.95

STARLITE HEADPHONE
Affordable and lightweight. 1/4” 90 degree, nickel-plated stereo plug. 32 OHM, frequency response 20-20kHz. 6-ft. soft, coil cord. Padded, adjustable headband with padded swivel earcups. 401-2020-1 $24.95

CLASSIC CARRYALL BAG
Fits all models except TM 808. Does not require disassembly of metal detector. 601-1205-3 $49.95

DELUXE BACKPACK >>>
Fits most White’s models. Two 12”x12” zippered accessory pockets. Adjustable shoulder straps, padded back and hanging loops. 601-1254 $49.95

DELUXE APRON
Heavy-duty nylon hunting apron with 2 pockets and full zipper. Adjustable strap up to 50”. 601-1253 $14.95

NEW! CLASSIC CARRYALL BAG
Protect your investment...

NEW! DIGMASTER >>>
Ultimate trowel. Heat tempered, serrated edge. Sheath included. 601-0073 $39.95

NEW! TARGET DEMO KIT
You can HEAR what common targets sound like... and SEE how they display on the screen. Just throw the targets down and sweep over them to learn the sights and sounds of common targets. Included: Quarter, Dime, Nickel, Penny, Bottle Cap, Pull Tab, Nail. 802-8093 $6.95

NIMH CHARGER STAND
NiMH Charger Stand required for use of 509-0042 or 509-0037 Charger and 802-5281 NiMH Rechargeable Battery. Holds Battery and completes/monitors charger electrical functions. 802-5285 $49.95

STANDARD NIMH RECHARGEABLE BATTERY
Standard Equipment with Spectra V3i, also works well as a premium rechargeable battery for MXT and M6. Must be charged with 509-0042 or 509-0037 and 802-5285 Charger and Charger Stand. Three hours to full charge, longer life per charge compared to NiCad Rechargeable batteries. 802-5281 $59.95

HEAVY DUTY NIMH RECHARGEABLE BATTERY
Heavy Duty Replacement/Substitution for standard 802-5281 NiMH (1800 mAh) Rechargeable Battery and 802-5211-1 NiCad Battery. Must be recharged only with 509-0042 or 509-0037 NiMH Charger and 802-5285 NiMH Charging Stand (V3i Standard equipment charging system). Provides 2200 mAh capacity for a 20% increase in use time prior to recharge over standard 802-5281. Can be used with M6, MXT, XLT, VX3, V3i and Slim Line TDI (SL) models. 802-5321 $79.95

DELUXE APRON
Heavy-duty nylon hunting apron with 2 pockets and full zipper. Adjustable strap up to 50”. 601-1253 $14.95

NEW! DIGMASTER >>>
Ultimate trowel. Heat tempered, serrated edge. Sheath included. 601-0073 $39.95

NEW! TARGET DEMO KIT
You can HEAR what common targets sound like... and SEE how they display on the screen. Just throw the targets down and sweep over them to learn the sights and sounds of common targets. Included: Quarter, Dime, Nickel, Penny, Bottle Cap, Pull Tab, Nail. 802-8093 $6.95
BASEBALL CAP
100% cotton chino twill cap has a soft, smooth feel. Structured, mid-profile, 6-panel construction for a durable feel and crisp, athletic look. The visor is pre-curved and Velcro® back strap adjusts to fit most head sizes. Khaki or Navy 601-1260 $12.95

SAND SCOOP >>>
Handheld aluminum sand scoop. Rubberized grip. Heavy duty, hand-built construction. Handle is reversible. 601-0070 $34.95

LONG HANDLED SAND SCOOP
Handheld convertible (Short / Long) Sand Scoop. Spring Clip disassembles for travel/storage. 601-0069 $59.95

<<< BULLSEYE II PINPOINTER
When you’ve located a target and dug the hole, use the Bullseye II Pinpointer to precisely “pinpoint” the target. No tuning. Completely automatic. Works in either “vibration” or “beep” mode. Powerful LED light illuminates target areas when the button is pushed. Powered for up to 20 hours on a single 9-Volt battery. 36 kHz operating frequency, doesn’t interfere with any other metal detector 812-0002 $119.95

<<< DELUXE GOLD PANNING KIT
Everything you need to start panning for gold. 14” Gold Pan, 10 1/2” Finishing Pan, Classifier, Pan for Gold The Basics book, 50 Gold Facts booklet, suction bottle, suction pipette, specimen bottles, stainless tweezers and magnifier.* *items may be substituted if unavailable. 802-8069-1 $49.95

SUPER SOFT CHARCOAL HOODED SWEATSHIRT
This hooded sweatshirt is a 50-50 cotton and polyester blend with a super soft feel. Available in sizes: S-3XL Color: Charcoal Grey. 602-1143 $29.95

SUPER SOFT T-SHIRT HEATHER BROWN AND NAVY
This t-shirt is a 50-50 cotton and polyester blend. Features a tag-free neck label for added comfort. Available in sizes: S-3XL. Available in Heather Brown and Navy 602-1142 $14.95

WOMEN’S CUT SUPER SOFT T-SHIRT
100% preshrunk ringspun cotton 4.5-oz. Classic contoured silhouette with side seams. Sizes S-XXL Color: Dark Heather Grey. 602-1141 $14.95

FOR EVEN MORE PARTS AND ACCESSORIES

www.WhitesElectronics.com  I  1-800-547-6911
LOWER FIBER ROD
Replacement lower rod section connecting the loop to the upper aluminum rod. When used with older models requires 802-5096-14 Adapter Kit. 500-0242-1 $14.95

PEE WEE LOWER ROD
PeeWee Rod Replacement lower rod makes the Coinmaster and Prizm models usable by even small children. Measuring a total of 18 inches long, it is 5 inches shorter than standard rods. 500-0242-4 $9.95

EXTENSION CENTER ROD
Aluminum center rod section, standard equipment with GMT and BeachHunter models. Can be added to any White’s model between the lower fiber rod and upper Aluminum “S” rod. Extends adjustable length 4.5” to 12” inches. 500-0288-1-MB $19.95

HEAVY DUTY ARM CUP
Thicker material than standard. Recommended for heavy sand, brush, or water use. Non-adjustable hole position. Comes with arm cup strap. 802-5257-MB $9.95

MX SPORT PENLIGHT HOLDER
MX Sport Penlight battery Holder. Replacement for standard equipment. Holds “8” “AA” penlite batteries. Fits all MX Sport models. 523-0027 $9.95

3/8 HARDWARE
Replacement nut, bolt and washers for current models. 802-5096-11 $1.50

HIPMOUNT KIT FOR V3i AND VX3
Converts V3i and VX3 models so that the control box can be mounted on a belt (reducing weight). Reducing effort to that of the search coil and hip-mount handle alone during use. LCD and pinpoint toggle remains on the control box. Also compatible with DFX and XLT models. 802-5260 $59.95
ECLIPSE 950 COIL
Eclipse 9.5" Search Coil for Spectra Series, MXT All Pro, MX5 and M6. High performance multi-harmonic 9.5 inch search coil. Standard equipment on many MXT/M6. Bridges the gap between large search coils for maximum depth and small search coils for trashy areas. Arguably best all-around general purpose size. 801-3228-1 $149.95

ECLIPSE 6X10 DD COIL
Eclipse DD (6x10) Search Coil for Spectra Series, MXT, MXT All Pro, MX5 and M6. Elliptical “DD” loop provides better rejection of extreme ground conditions. Excellent speed hunting loop with quick and accurate audio discrimination. 801-3241 $179.95

SUPER 12 COIL
Super 12 Search Coil for Spectra Series, MXT, MXT All Pro, MX5 and M6. This new 12" concentric coil is designed for maximum depth and ground coverage in moderate to low mineralized grounds. 801-3235-1 $249.95

ECLIPSE 5.3 COIL
Eclipse 5.3 (6x6) Search Coil for Spectra Series, MXT, MXT All Pro, MX5 and M6. Provides better separation between targets in moderate to high trash areas and excellent pinpointing. Compared to larger search coils - improved sensitivity to physically smaller metal targets provides improved performance in moderate to high trash and a physically smaller foot print for working around obstacles. 801-3240 $149.95

D2 COIL
Fits Spectra Series, MXT, MXT All Pro, MX5 and M6. The new D2 10" DD coil is built for severe grounds - with the best DD pinpointing White’s has ever built. Greater ground coverage per pass compared to concentric 10" loops. Minimalist design for the lowest 10" DD weight ever at 17.9 oz. Less sweep resistance. 801-3238-1 $249.95

ECLIPSE 4X6 SHOOTER COIL
Eclipse Shooter “DD” (4x6) Search Coil fits Spectra Series, MXT, MXT All Pro, MX5 and M6. Elliptical 4x6 inch “DD” design provides superior performance in extreme ground, better sensitivity to smaller metal targets, performance in extreme trash and physically smaller foot print for working around obstacles. Longer but narrower detection window compared to similar sized search coils. Finds the good stuff in areas heavily littered with trash. 801-3239 $149.95

MXT MAX COIL
Specifically for use with MXT, MXT All Pro, MX5 and M6. Designed for larger metal items, relics, groups of coins, jar hunting, searching sand bars for large nuggets, etc. Three feet plus (depending upon target size and search mode) on larger masses of metal. Not tuned for VX3 / V3i. 2.25 lbs. Loop Stabilizer 802-5190-1 recommended (not standard equipment). Search areas where digging is not critical and a quality “shovel type” digging tool recommended. 801-3245 $249.95

9” TREASUREMASTER / COINMASTER COIL
Fits all Coinmaster/Prizm models. Open spider design. Epoxy filled, less buoyant, reduced sweep resistance. Heavy Duty cable. Standard equipment with Current Coinmaster. Compatible with Coinmaster/Prizm Spider/TreasureMaster®/TreasurePro. 801-3231-0 $149.95

4X6 TREASUREMASTER / COINMASTER / PRIZM
Provides excellent trash rejection while maintaining good detection depth and performance in extreme grounds. Maintains reasonable display calibration. Works with standard Mini “DD” loop cover #501-4117. Works great with current Coinmaster, Coinmaster Pro, and 6T. Also works great with Prizm II, III, IV, V. 4X6 Prizm DD. 801-3237 $149.95
Are most metal detectors basically the same?  
**THERE ARE FIVE BASIC TYPES OF METAL DETECTORS:**  
General Purpose: Coin/Relic/Treasure | Gold Prospecting | Underwater and Salt Beach | Cache Hunting/Deep Searching | Industrial and Security  

**SOME METAL DETECTORS** are designed specifically for one type of searching. For example, gold prospecting detectors are designed to be extremely sensitive to small pieces of gold. General purpose models are typically not designed to detect metals as small as a grain of rice but do offer better trash metal rejection compared to prospecting models.  

**WHEN PURCHASING A METAL DETECTOR**, it is important to consider what type of metal detecting you will do most often and prioritize according to your typical use.

---

### How deep do metal detectors detect?  
**THIS IS THE MOST FREQUENTLY ASKED QUESTION** and unfortunately the most difficult to answer! Most general purpose models are factory equipped to search for coin and jewelry sized metals at depths of up to 12 inches, depending on metal size and alloy. To detect beyond 12 inches requires larger accessory search coils and/or to give up attempts to eliminate trash metals.  

**DETECTION DEPTH VARIES WITH MANY FACTORS:**  
✓ The size, shape, exact metal alloy and orientation of the object in the ground.  
✓ The size of the search coil. Soil conditions and the amount of minerals in the soil.  
✓ The experience and skill of the operator.  
✓ The metal detector used and the selection of settings, particularly All Metal or Disc.

---

Metal Detecting - Code of Ethics

Knowing where and how to metal detect responsibly preserves the hobby for treasure hunters now and in the future.

ALWAYS REMEMBER TO:

✔ Obtain permission before you detect or dig, even on public lands. Regulations vary by state, so it's always best to double-check first.
✔ Leave the area like you've never been there. A properly dug "plug" can quickly be turned back over and tamped down, with little sign a hole was dug.
✔ Report any discoveries that may have historical value to a local historian or museum. Not only is preserving history the right thing to do, in many cases it's mandated by law.

Read White's full Code of Ethics at: www.WhitesElectronics.com
